Anthony P. Ellis, Ellis Law Group, PLLC, Louisville, KY, for petitioner.

Colleen Clemons Hartley, U.S. Department of Justice, Washington, DC, for respondent.

RULING ON ENTITLEMENT¹

On November 16, 2018, Martha Jane Ritchie filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that she suffered Guillain-Barré Syndrome (“GBS”) as a result of an influenza (“flu”) vaccine she received on November 14, 2017. Petition at Introduction, ¶ 2. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On December 10, 2019, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent states that “petitioner’s alleged GBS is

consistent with the Vaccine Injury Table for GBS following the seasonal flu vaccination. It is respondent's position that petitioner has satisfied the criteria set forth in the Vaccine Injury Table (Table) and the Qualifications and Aids to Interpretation (QAI), which afford petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause." *Id.* at 4. Respondent further agrees that Petitioner's records show that she suffered the sequela of her injury for more than six months after vaccination. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
